MAX STREICHER S.p.A. is subject to the application of the decree, which introduces, within the company, the duty to identify one or more internal channels that enable authorized persons to make a report for an action or omission in accordance with the regulations in force.

- traditional or registered mail, sent to the address of the reporting manager - Alfa Solutions S.p.A. - headquarters in Strada Baganzola 36/A, 43126 Parma (PR).

Below is a summary of the internal channels activated by MAX STREICHER S.p.A. and usable by the reporter.

7.5.1. EQS IT platform

Connecting to the Controller's website <https://www.streicher.it>, the reporter can make a report through the reporting platform, which involves **filling in a form** requesting the necessary information to allow the subsequent analysis and instruction of the report. Through the platform, the reporter can also attach documents to support his report, send voice notes and take photographs.

The use of the platform for the reporter is free of charge.

Compilation phase of the report

The platform allows the reporter to:

- make an anonymous report, without any personal identification. It will be sufficient for the reporter to tick the option 'I wish to remain anonymous';
- make a so-called confidential report by entering your name, telephone number and e-mail address.

The platform will allow the reporter to proceed in two alternative ways:

- in written form, by filling in the fields indicated;
- orally, through the recording of a voice message. In this case, the voice of the reporter will be suitably distorted, in order to inhibit his or her identification (it being understood, in this case, that the reporter may still reveal his or her identity by providing his or her personal data).

The whistleblower will have the opportunity to attach to his report the documentation proving the facts that are the subject of the report.

Next step after compilation, the 'Secure Inbox'

In the final step of filling in the form on the platform, the reporter is asked to create a specific **password**. This password, together with the 'report number' generated at the end of the process, allows the reporter to access the **secure Inbox** (also accessible by connecting to the website), which is the space where the reporter can see the 'progress' of the report made and allows the person concerned to **dialogue with the managing entity**, as well as to provide additions, upload documents, etc.

Please note that the report number, which is unique and cannot be reproduced, and the associated password must be adequately kept by the reporter, as any loss of these data will make it permanently impossible for the reporter to access the portal.

The reporter may request the reporting manager to be heard to make his report through a face-to-face meeting. A request can be made by calling the operator on 335 8077441 from Tuesday to Thursday from 9am to 4pm.

The meeting will take place at the manager's premises at Strada Baganzola 36/A, 43126 Parma (PR), on a date agreed between the parties.

There are no financial charges to be borne by the reporter.

Conduct of the meeting

At the meeting between the operator and the reporter, the latter is invited to provide all the elements necessary to understand the dynamics and allow the operator to carry out the necessary investigations and checks.

With the consent of the person concerned, the report will be documented by the operator by means of a report. The reporter can then verify, correct and confirm the minutes of the meeting by signing them.

7.5.3. Traditional or registered mail, sent to the address of the reporting manager - Alfa Solutions S.p.A. - headquarters Strada Baganzola 36/A, 43126 Parma (PR)

Based on the provisions of Legislative Decree 24/2023, **the manager will have seven days to communicate the reporting party receives the report.**

Subsequently, **within three months from the date of the acknowledgement of receipt or, in the absence of such an acknowledgement, within three months from the expiry of the seven-day period from the submission of the report, further feedback will be provided to the reporter¹.**

Acknowledgement will be provided via the secure Inbox (where activated by the user who employed the IT platform). In other cases, any contact details communicated by the reporter will be used. In the case of a report made through the face-to-face meeting, the manager will agree with the reporter on meetings following the first one, during which all necessary updates will be provided.

7.7. The Reporting Manager

MAX STREICHER S.p.A. has entrusted the management of the whistleblowing reporting channel to **Alfa Solutions S.p.A.** with registered office in Viale B. Ramazzini 39/D, Reggio Emilia (RE).

The operational office of the manager (to whom you may send the paper mail, the registered letter or at which you may make the meeting) is located at Strada Baganzola 36/A, 43126 Parma (PR).

Alfa Solutions S.p.A. was identified as the managing entity because it was considered to possess the necessary autonomy, independence and professionalism required by the regulations.

The manager is responsible for, among other things, the following activities:

- monitoring of all reporting channels identified by MAX STREICHER S.p.A.
- dialogue with whistleblowers and response to reports;
- instruction, where necessary, of alerts;
- maintaining relations with the company management and the corporate bodies involved in the report (e.g. the O.d.V.), ensuring respect for the confidentiality of the reporter, the reported person and the content of the report.

7.8. Alerts Sent Outside the Channels Foreseen by the Owner

If the internal report is made to a person other than the manager, where the whistleblower expressly states that he/she wishes to benefit from the whistleblowing protections or where such a wish can be inferred from the report, the report is considered a "whistleblowing report" and is to be forwarded, within seven days of its receipt, to the competent internal person, with simultaneous notification of the transmission to the reporting person.

Otherwise, if the whistleblower does not expressly state that he/she wishes to benefit from the protections, or if this intention cannot be deduced from the report, the report is regarded as an ordinary report.

The staff of the company receiving the report that has passed through outside the prescribed channels will contact the reporting manager on 335 8077441, who will provide the necessary elements to carry out the transmission in accordance with the criteria of maximum confidentiality and in a manner appropriate to protect the reporter.

7.9. Activities of the Alert Manager: Verification and Management of Reporting

Alfa Solutions S.p.A., in its capacity as the reporting manager, shall ensure, throughout the entire reporting process, the ongoing guarantee of the rights of all parties involved, safeguarding the confidentiality of the persons concerned, ensuring the timeliness of feedback and the traceability of the entire process.

7.9.1. Preliminary stage - eligibility filter

The operator will carry out an analysis of the admissibility of the report.

¹ The three-month deadline does not coincide with the conclusion of the reporting process: particularly complex facts may require longer processing. In any case, the reporter will receive a reply within the specified deadline.

In particular, during this phase, the operator will verify:

- the subject of the report falls within the matters referred to in the Legislative Decree. 24/2023;
- the report has precise, circumstantiated, verifiable content and refers to relevant facts.

In such cases, the relevant investigation will be initiated.

If the alert is:

- be too general and it is not possible to have more elements of analysis (e.g. if the reporter cannot be reached or does not provide the necessary additional information);
- does not fall within the scope of the legislation (so-called 'non inherent' reports as indicated in Section 7.3)

the manager will archive the report received and notify the reporter.

7.9.2. Preliminary investigation phase

The objective of the preliminary investigation is to carry out investigations in order to ascertain objectively facts reported.

The operator will carry out the necessary analyses.

In this case:

- elements provided by the reporter will be analyzed;
- if necessary, the reporter will provide additional information (via the secure Inbox or the different address indicated by the person concerned);
- if necessary, and with the respect of confidentiality, the personal hearing of the whistleblower or any person involved may be proposed for investigation of the facts reported.

For specific case, or in order to understand more clearly the dynamics reported , the manager may interface with the relevant corporate functions. For instance, if the report concerned a possible breach of the D. Lgs. 231/2001 or the Organization and Management Model adopted by the company, the manager will involve the company's Supervisory Board, taking care to remove all information that might reveal the identity of the persons involved.

7.9.3. Closing Phase and Outcomes

At the end of the preliminary investigation phase, after reviewing any documentation produced by the person concerned, hearing the person concerned and examining the case, if the report turns out to be inadmissible, the manager will proceed to dismiss the report, notifying the reporting person at the same time.

If the report is admissible, the operator will prepare an appropriate report and share it with the relevant company bodies. The report will contain the actions taken, the conclusions reached and any suggestions for improvement.

The reporter will be adequately informed of the conclusions reached.

As ANAC has pointed out, it is not the responsibility of the alert manager to determine individual responsibilities, nor to carry out legality or merits checks on acts and measures adopted by the institution and subject to reporting, which will be instead evaluated by the Management Board, which will also adopt the necessary countermeasures and possible disciplinary sanctions.

7.10. Reportistics
